- [UCSC campus map](#) It shows the classrooms and colleges info on map.
- [MOOC 2015](#) It shows the distribution of MOOC courses by subjects, 2015.
- [eazyBI](#) gives total revenue of 1997 by quarters and revenue of different agents, we can change rows to division of UCSC and columns to subjects, 1997([original link](#)).
- [United States census](#) Shows the change in population density from 1920 to 1950, (If time available.

StoryTelling Context:

If I finish my class at 10 am, it's too early for lunch and I want to know if there are any interesting classes or events on campus now, maybe an art class or just an event nearby.

So, we will build a web app to help us make the decision.
